

INTENSE, BUT SOPHISTICATED

A TRADITION PASSED DOWN – AND BOTTLED

Had to travel to the ends of the earth, always pursue something finer. Only then could you see what was close by and grasp the treasure you'd been sitting on all the time. It is the wisdom gained over the generations, drawn from the deep spruces and crystal-clear lakes. Real life, life lived to the full. Kolima was born out of freedom and forbidden tradition. Something that can only be tasted with your heart.

KOLIMA LAKRITSI

We combined Kolima Vodka with the generally acknowledged world's finest licorice and created a velvety smooth liqueur in which the intense flavour of licorice meets the sophisticated bite of a superb vodka. Its aroma is simultaneously sweetly grainy and licorice-rich. Kolima Lakritsi asks no one for forgiveness. It is strong and just suitably sweet for enjoyment as it stands or in cocktails.
